Instructional Update
Superintendent noted upcoming dates of significance are School Nurse Day on May 8, and Teacher Appreciation Week on May 6-10.

A handout on the SPS Teacher Evaluation Plan was provided, and Freeman Burr explained in depth the timeline to date, an overview of initial discussion points and specifics of the pilot plan, which has to be submitted to the state by May 3. He said the board is expected to make a proposal tonight to accept the draft for submission to the state for consideration.

(Note: Tape 1; Side B – 7:46 p.m.)

He spoke briefly about the Administrative Evaluation noting the state will consider a possible extension to May 15. As requested by the state, Mr. Burr will follow up with a written request for an extension. He noted that if we are unable to complete an Administrative draft with input and feedback, we will automatically default to the CT SEED plan.

There were questions and discussion of parent feedback relative to evaluations and expected percentage rate to validate the survey. Kathy Bender said the state has contracted with a company that has recommended a parent survey, which we can use and add building-specific questions. She said we have the option of using Infinite Campus, which we use currently for School Climate Surveys.

Superintendent Burr discussed the Common Core State Standards Practice testing window, which extends to May 17. He said there are random student selections; we are working with the schools to make some modifications on who is assessed. Not every student in every grade will take every subject. It will be 50-70% of students in grades 3-8 and grade 11 – but not in every subject. Next year, it will be administered as a pilot to every student in every subject, grades 3-8 and grade 11.
