NEW BUSINESS
James Ryan introduced Neil Thurber, who gave a powerpoint presentation update on all Brownfield’s sites including Rolfite, Samarius, Axton Cross, Cellastik, Chromium Land and possible applications for additional state or federal assistance. He told the board they were free to ask questions as he went along. He explained what has been done and what still needs to be done and how they do certain operations. He said development could start on these sites with existing site work done as needed. Another issue they are working on is Environmental Land use Restrictions. An example is the Farmer’s Market site. There is a cap over the site but groundwater detectors are needed to complete the site. Other sites will require ELUR’S and can be addressed upon development. Mr. Bogen said funding was easily acquired because of the quality of work done by AECOM. James Oram and James Rayn both thanked Neil Thurber for a very informative presentation.

A copy of the powerpoint presentation will be distributed at the next CAB meeting.

Rebecca Twombly made a motion to adjourn the meeting at 8:35 p.m. Robert Novack seconded the motion. All agreed. Motion was filed.
