Comm. Harger provided some brief background information with the timeline for Appl. #20-21. She noted that it was accepted for review on October 28, 2020 with a public hearing on January 20, 2021.

Mr. Rossetti mentioned he and the city engineer had an earlier conversation regarding Appl. #20-21 and Mr. Rossetti said, "there is nothing that would prevent this application from proceeding in a positive manner."

Attorney Charles Willinger of Willinger, Willinger & Bucci, P.C. addressed the commission on behalf of the applicant. He spoke to the Commissioners about their previous concerns of the sanitary and storm water connections, the proposed sidewalk, the vehicle barriers and the retaining walls. He indicated they would file a separate application with the WPCA to confirm the capacity of the sanitary and storm water connections if Appl. #20-21 was approved. He then stated, "when we can connect to a sidewalk, we will at our cost install a concrete sidewalk" and he also noted that guardrails will be installed along Todd Road. Furthermore, he mentioned the westerly side of the building's retaining wall length is 175 ft. and the height is one to four ft. The retaining wall located to the easterly or rear of the building is 285 ft. in length and it will range from one to six ½ ft. in height. A decorative fence will be installed next to the retaining walls as well. He noted there is no drive through and signage plan has now been filed.

Attorney Willinger indicated they submitted a revised storm water management plan, a drainage calculation report and they have amended the grading and utility plan. He reviewed the installation of the infiltration chambers along with property site lines. He mentioned the city engineer emailed them saying he is satisfied with the traffic study

and Inland Wetlands also gave their approval.

Comm. Parkins mentioned she requested a sidewalk on Platt Road by the applicant as a safety aspect for the pedestrian's walkability and both Comm. Harger and Comm. Matto concurred. Mr. Rossetti stated he feels the Commissioners can discuss the sidewalk concerns at the detailed development stage. Comm. Matto noted she would like a statement in the resolution regarding the installation of sidewalks and Comm. Tickey concurred.
