Chromium Process Update

Standard Demolition Services, contractor for the demolition of the Chromium Process site, is scheduled to begin removing waste solids and liquids from the interior of the building beginning on Monday, November 14, 2016. This portion of the effort should conclude on Thursday, November 18, 2016. Once these waste materials are removed it is expected that demolition of the building will begin no later than Monday, November 21, 2016.

Individuals with questions may contact Paul Grimmer, President of Shelton Economic Development Corporation at (203) 924-2521.
