PART IV

STATE DEMOLITION CODE

Sec. 29-401. (Formerly Sec. 19-403b). Regulations. The Commissioner of Public Safety shall adopt such regulations in accordance with the provisions of chapter 54 as may be necessary for the administration of this part, including but not necessarily limited to, working definitions of such terms as "demolition", "building", "structure" and the like. Such regulations shall be designed for, and limited to, the carrying into effect of the intent and purpose of this part for public safety.

History: P.A. 79-222 made commissioner of public safety rather than commission primarily responsible for regulations, delegating commission to advisory role; P.A. 82-451 deleted reference to commission on demolition's advisory role in adoption of regulations and specified that regulations must be in accordance with Ch. 54; Sec. 19-403b transferred to Sec. 29-401 in 1983.

Sec. 29-402. (Formerly Sec. 19-403c). Certificate of registration for demolition business; Application, fees, refusal or revocation. Definition of "registration." Exemptions. (a) No person shall engage in the business of demolition of buildings without a certificate of registration obtained from the Department of Public Safety. An applicant for initial registration shall file an application with the Department of Public Safety, furnish evidence of expertise and financial responsibility and pay a fee of three hundred fifty dollars for a class B certificate and seven hundred fifty dollars for a class A certificate. Each certificate shall be valid for twelve months from date of issuance and shall be renewable on application of the registrant upon payment of an annual fee of two hundred dollars for a class B certificate and six hundred dollars for a class A certificate. The department may refuse to issue any such certificate for cause, and may revoke or refuse to renew any such certificate for failure to carry out and conform to the provisions of this part or to any regulations adopted hereunder, or for any violation of title 22a. No person shall be refused a certificate or a renewal thereof, and no certificate shall be revoked, without an opportunity for a hearing conducted by the Department of Public Safety.

(b) As used in this part, the term "registration" includes the whole or part of any permit which the Department of Public Safety issues under authority of the general statutes and which (1) requires persons to place their names on a list maintained by the department before they can engage in the business of demolition of buildings, (2) does not require a person to demonstrate competence by examination or other means, and (3) may be revoked or suspended by the department for cause.

(c) The provisions of this section shall not apply to (1) a person who is engaged in the disassembling, transportation and reconstruction of historic buildings for historical purposes or in the demolition of farm buildings or in the renovation, alteration or reconstruction of a single-family residence, (2) the removal of underground petroleum storage tanks, (3) the burning of a building or structure as part of an organized fire department training exercise, or (4) the demolition of a single-family residence or outbuilding by an owner of such structure if it does not exceed a height of thirty feet, provided (A) the owner shall be present on site while such demolition work is in progress and shall be held personally liable for any injury to individuals or damage to public or private property caused by such demolition, and (B) such demolition shall be permitted only with respect to buildings which have clearance from other structures, roads or highways equal to or
